Jeaneanne,

Kip has been in touch with the contractor. The contractor has expressed concern regarding capacity of the facility- specifically if a large group wants to enter the space and we are at or near capacity, who is going to control entry. Based on pre-registrants, we may be near capacity at some point (probably at the meeting's inception), noting that we expect many registrants to come and go during the duration of the meeting. The contractor also advised that Mote Marine Lab has expressed general security concerns related to the planned protest- we do not have information about any specific concern at this time. The facility did want to remind our contractors that they do not provide security for our event. Mark informed me this morning that in the past we have coordinated events where we expect protestors with our IG office.

All

I am aware and have advised our mgmt. please let me know if you have security concerns. Otherwise we will proceed as planned.

Thanks  
Jeaneanne

As was noted when we talked about this a month or so ago, hiring security is not within the scope of work for the contract. If security is needed the agency is going to have to use another mechanism.

**Subject:** Protests scheduled for Tuesday

**Importance:** High

Stuff about ready to get real. I think we do need to bring in outside security of some kind. Protest already scheduled for Tuesday afternoon. We need to update the website and reg. page ASAP about comment slots are full.

**Subject:** Kampachi PH check-in

For today's meeting, attached are the revised draft documents that will be available during the public hearing – public notice, summary sheet, and comment form. Also attached is the draft run of show and opening statements.

In order to simplify the information on the summary sheet, I removed two sections – 1) public comment procedures explaining how to submit written comments; and 2) EPA actions after the public comment period. This information is within the Public Notice and was duplicative.
